REPUBLIC SPECIAL.

Vienna. III. Feb. 2.—Mr. Clyde Webber, a prominent young business man of Galatea, III. was married to Miss Offle M. Gore, daughter of James W. Gore, cashler of the Drovers' State Bank of this city, to-day.

Traders who were bullishly inclined had a great deal of difficulty in keeping grain values un yesterday, though there were occasional good strong spots. Weather was the main factor. The nonappearance of the predicted cold wave and the prospects of higher temperature with possible snow held out little encouragement to buyers. Receipts were again heavy and the Liverpool market did not reapond to the domestic advance of the previous day. Selling was brisk for a time at the opening, despite the fact that the Chicago crowd was plugging for higher values. Armour's name was again freely used as the leader of the upward movement. Additional strength developed in the second hour when foreign advices showed that there had been a bulge in the Paris market. Buying advanced prices sharply on receipt of this information, but later profit taking offset the greater part of the gain.

Corn was extremely duil throughout the session. About the only strong card was the prospect that wel weather would check the movement to market. There was little outside interest and just enough local buying to keep values stendy.

May wheat opened %6% off and elected 1.55% up.

May cern opened 1/sc off and closed unchanged. May outs closed Me up.

Produce prices were generally steady with a continued good demand for current re-Local securities had excellent support. Tractions and trust company issues

pecially strong. Vesterday's bank clearings were \$8,522,842; balances, \$813,667. Discount rates steady, between 5 and 6 per cent. Spot cotton was unchanged in the local market.

WHEAT BUYERS CAUTIOUS DESPITE OUTSIDE STRENGTH.

Out Later.

Local markets did not respond well to attempts at Chicago manipulation yesterday. Though there was something of a raily following an opening decline, whent was dull and featureless and only a trifle higher at the clear. Prices were sharply lower at the opening because of disappointing weather, heavy receipts and the follure of foreign markets to respond to Monday's demestic advance. Warmer temperature and prossite.

HOGS-A very small supply of hors was on sale, the receipts amounting to around 4.600 head, which in reality is not more than half the hogs needed to meet the requirement of the trade. A good demand prevailed from all classes of buyers. The market opened active with prices fully 5c higher than on Monday on all decent hogs. The trashy kinds showed no improvement and were rather allow sale. Of course the good smooth medium and heavy hogs, such as both the packers and city butchers wanted, were the best sellers and showed the greatest advance. The early supply lasted but a short time and late arrivals sold as fast as they came in if good. Lightls, if good, sold extra well, and the number on sale was by no means sufficient to meet the demand.
